DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 33, 34, 37, 38 and 40-45 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's Admitted Prior Art (AAPA).

With regards to claim 33, Applicant, at pages 1 and 2 of the specification to be known as AAPA, discloses an endoscope apparatus comprising a hand piece, an insertion tube connected to the hand piece, the insertion tube having a distal end, an endoscope tip removably connected to the distal end of the insertion tube, the endoscope tip having an outer surface and including one optical imaging component, and a tip tool (pliers or wrenches) including a tip tool body fit over at least a portion of the endoscope tip (the pliers or wrenches jaws), wherein the tip tool (pliers or wrenches) is adapted to releasably engage the endoscope tip.

For claim 34, the inner side of the jaws constitutes the tip holding element.

For claims 37 and 38, pliers and wrenches are typically made of metal.

For claim 40, the pliers or wrenches are capable of holding the endoscope tip when the endoscope tip is not connected to the insertion tube.

For claim 41, Applicant should note that tools as pliers or wrenches typically include identifying indicia such as model, make, size or any other relevant information.

For claim 42, the inner side of the pliers or wrenches jaws is disposed within the pliers or wrenches bodies.

For claims 43-45, the recited limitations are conventional as disclosed on page 1 of Applicant's specification.

Allowable Subject Matter

3. Claims 15, 16, 25, 26 and 32 are allowed.
4. Claims 35, 36 and 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 33, 34, 37, 38 and 40-45 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3726

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
